EXPERIENCE

- Let's GrowMore** *October 2022 - November 2022*
Web Developer Intern Virtual
– It is 1 month duration of virtual internship in which I had completed 4 task, in which I build 4 small projects based on HTML, CSS, and JavaScript.

PROJECTS

- E-Commerce Website(PG-LIFE)** *October 2022 - November 2022*
<https://github.com/raqimfraz09/PG-Life>
– E-commerce website pg life using HTML, CSS and JavaScript. The main reason behind this project is to create a website which is just similar as other e-commerce website for accommodation. Right now I am currently working on it with the backend technologies.
- Depression Detection Using Text** *Feb 2023 - Feb 2023*
– We made a basic level project using some of the machine learning algorithms and get the accuracy of 81% on multiple datasets. We uses datasets collected from kaggle which is mental health twitter datasets gathered from tweets of twitter and sentimental tweets.
- Personal Profolio Website** *Aug 2023 - Aug 2023*
– It is simple personal portfolio website created by using front-end technologies HTML, CSS, and JavaScript. It responsive website, responsiveness is provided by using JavaScript and CSS.
- Created a React app** *Oct 2022 - Nov 2022*
User Card Grid Layout <https://github.com/raqimfraz09/User-card-grid-layout>
– It is simple personal react website created by using front-end technologies HTML, CSS, and JavaScript and react API. In which an API is provided and using those API I have to fetch data of users details.
- JavaScript Form Validation** *Oct 2022 - Nov 2022*
To Validate Signup Form <https://github.com/raqimfraz09?tab=repositories>
– It is simple signup form created by using front-end technologies HTML, CSS, and JavaScript to checking the validation. It shows that information filled in form is valid or not.
